Education

[Faculty of computers and artificial intelligence at Helwan university]

[Graduating 2027]   GPA 3.41

Software Engineering (Credit Hours FCIH programs)

Experience

I participated in Minders, where I was a member and we were learning how to become skilled in front-end development. We learned HTML, CSS, and JavaScript, and at the end, we worked on a final project as a team, incorporating everything we had learned during the workshop.

Skills

Technical :
- programming languages :C, C++, Python, JavaScript, Java.
- Framework: React , JavaFX (JFX).
- Technologies: HTML, CSS and MySQL.
- Programming concepts: Object Oriented Programming (OOP).

Non-Technical:
- Leadership
- Time-management
- Problem solving techniques
- Communication skills
- Teamwork

Languages:

     Arabic: Native.

     English: Intermediate.

     Frensh: Beginner.

Certificates

- Successfully completed programming fundamentals.
- Minders Frontend workshop.
- Final project fashion store.

Projects

Traffic lights:

- implemented using RGB Led Bulb, 555 timer IC, Diodes,Capacitors,Variable resistance, Resistance

Shared screen voting multiplexer system digital electronics circuit:

- implemented using 7 segment display,CD45111 Decoder , IC 74151 Multiplexer

Movie website:

- Front end project using Html , CSS , JavaScript

fashion-Store website:

- Front end project using Html , CSS , JavaScript

Portfolio:

- Front end project using Html , CSS , JavaScript
